

## Informations of my chassis legs for Manta-A / Ascona-A.

For replacement of the outer sheets of the front chassis legs in the most rusty section i offer the following parts:

They are handmade from electrolytically zinc-plated steel-sheet.

The price for two sheets for one chassis leg is 100€.

A chassis leg consists in original of a 0,8mm outer sheet and a inner reinforcement.

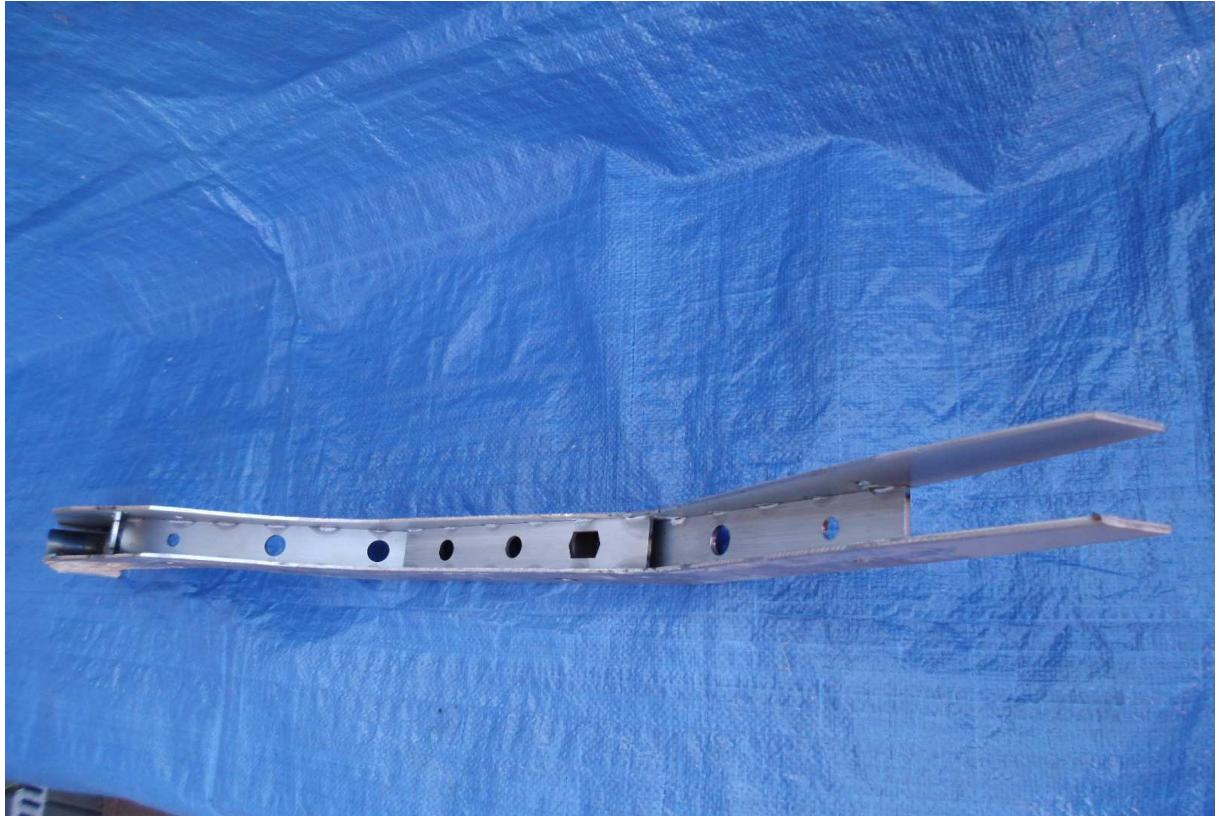

This reinforcement is in the down-section 3mm and upward from the fixing point of the front-axle 0,8mm.

The inner reinforcement of my chassis legs is completely made from 3mm electrolytically zinc-plated steel-sheet.

The price for the completely welded reinforcement is 125€.

For the replacement of the chassis legs with inner reinforcement  
i offer 3 versions.

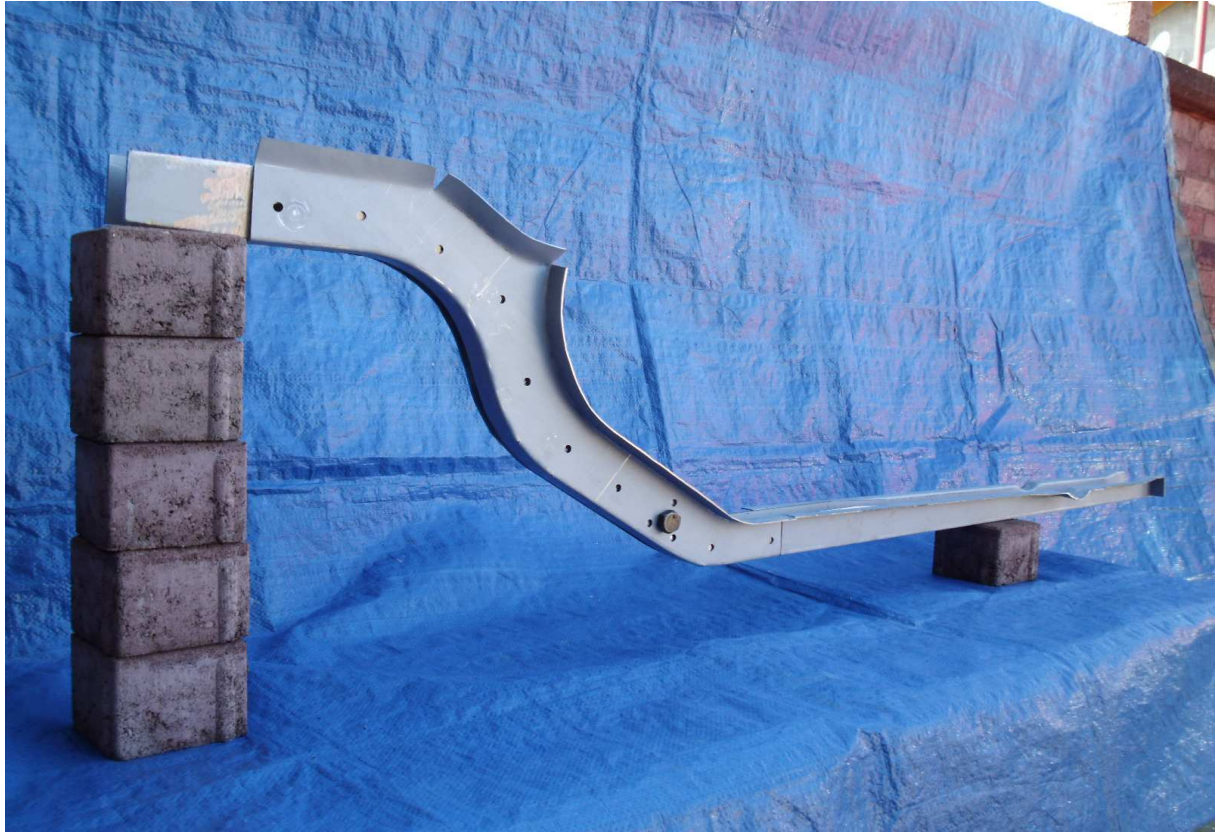

Version 1: the upward shown outer sheets with reinforcement for 225€.  
Version 1 will cost ready for replacement, outer sheets and reinforcement  
weldet, 350€.

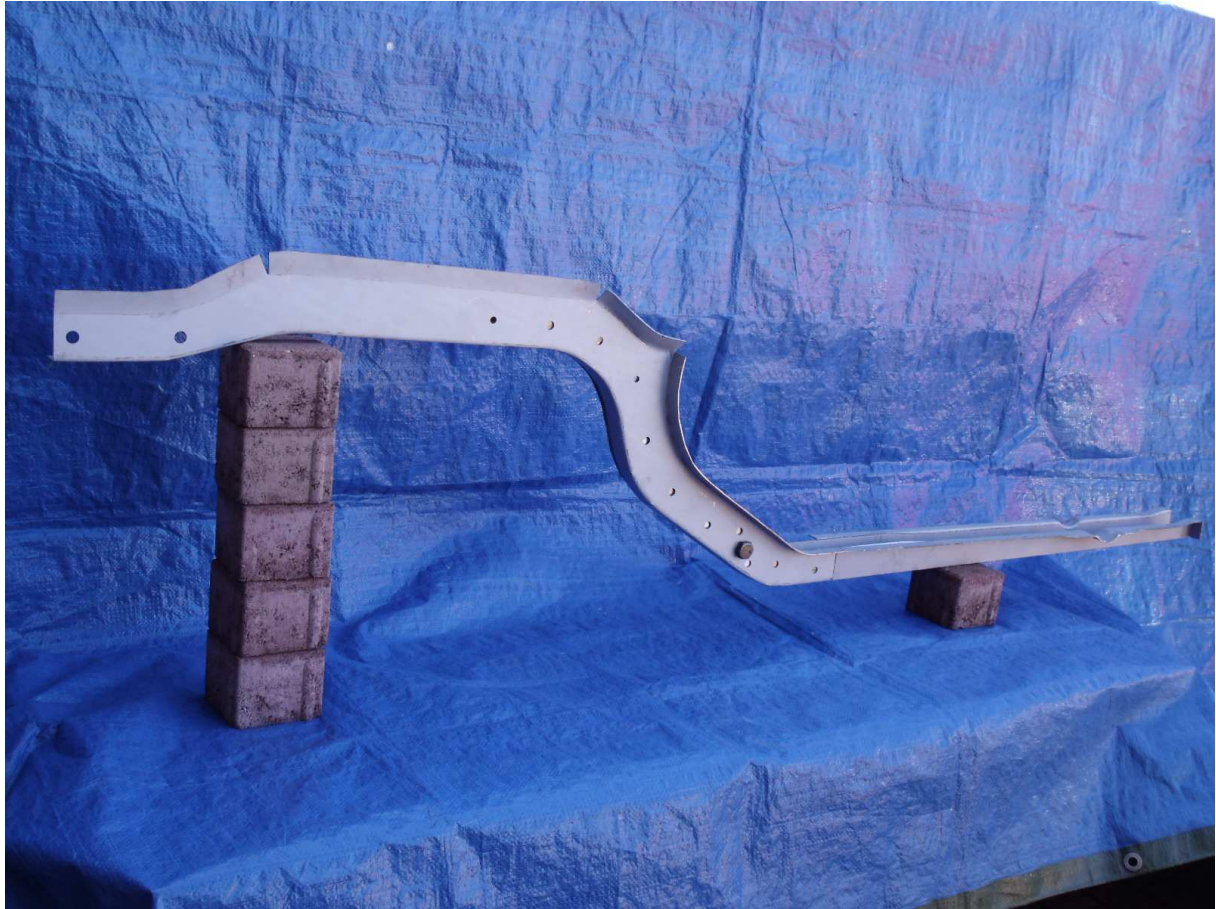

Version 2: the upward shown outer sheets and the straight part with reinforcement for 300€.

Version 2 will cost ready for replacement, outer sheets and reinforcement weldet, 400€.

Version 3: complete chassis leg with reinforcement for 325€.  
Version 3 will cost ready for replacement, outer sheets and reinforcement  
weldet, 475€.

The straight part of the chassis leg is also handmade from 1,5mm electrolytically zinc-plated steel-sheet, price for one is 75€.

A bill with declared value-added-tax will send with the parts.

More information you can get at telephone.
