

Informations of my chassis legs for Manta-B / Ascona-B.

For replacement of the outer sheets of the front chassis legs in the most rusty section i offer the following parts:

They are handmade from electrolytically zinc-plated steel-sheet.

The price for two sheets for one chassis leg is 100€.

A chassis leg consists in original of a 0,8mm outer sheet and a inner reinforcement.

This reinforcement is in the down-section 3mm and upward from the fixing point of the front-axle 0,8mm.

The inner reinforcement of my chassis legs is completely made from 3mm electrolytically zinc-plated steel-sheet.

The price for the completely welded reinforcement is 125€.

The upward shown outer sheets with reinforcement will cost 225€.
Ready for replacement, outer sheets and reinforcement welded and grinded,
the price is 350€.

A bill with declared value-added-tax will send with the parts.

More information you can get at telephone.
